

## ENVI1195 Contaminant Hydrogeology &amp; Groundwater Remediation

Univ of Greenwich at Medway

UoG Term1 2024/25

Course coordinator: ERIC MARTIN

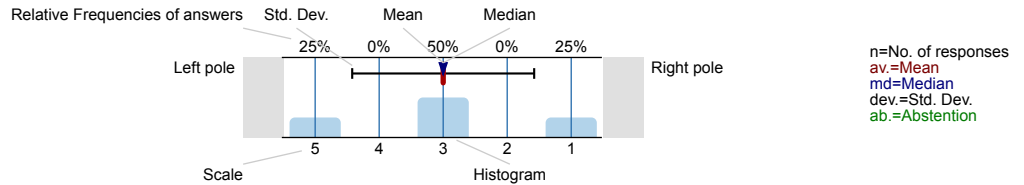

No. of responses = 10; Response rate: 62.5%

## Survey Results

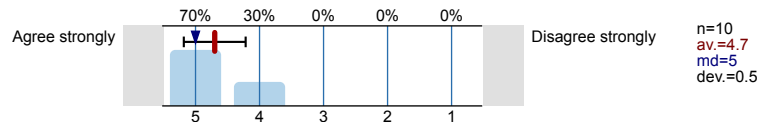

## Legend

Question text

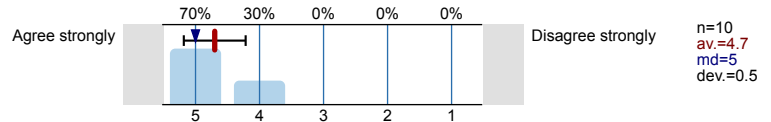

## 1. Module organisation and management - Contaminant Hydrogeology &amp; Groundwater Remediation

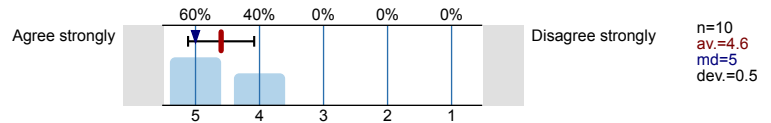

1.1) This module is well organised.

1.2) My experience of the module matches the description provided at the start.

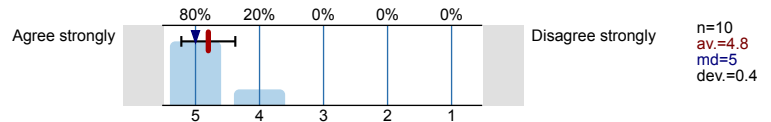

1.3) I understand the module learning outcomes.

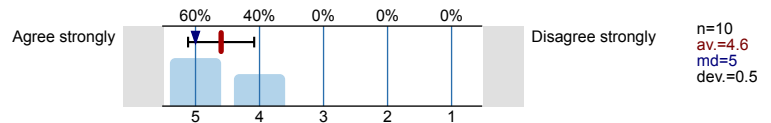

## 2. Teaching and engagement with learning - Contaminant Hydrogeology &amp; Groundwater Remediation

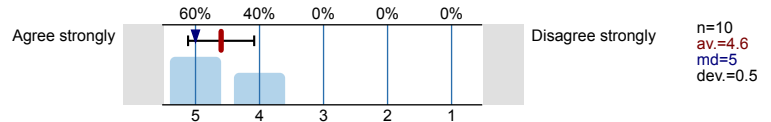

2.1) Staff have made the subject interesting.

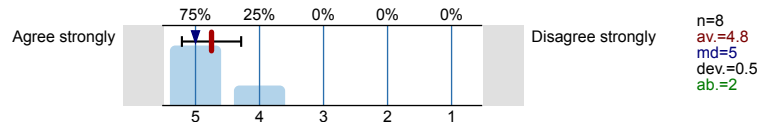

2.2) This module has challenged me to do my best work.

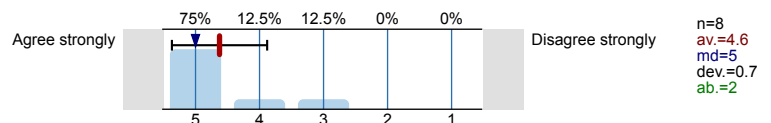

2.3) The curriculum includes content from a range of perspectives and backgrounds.

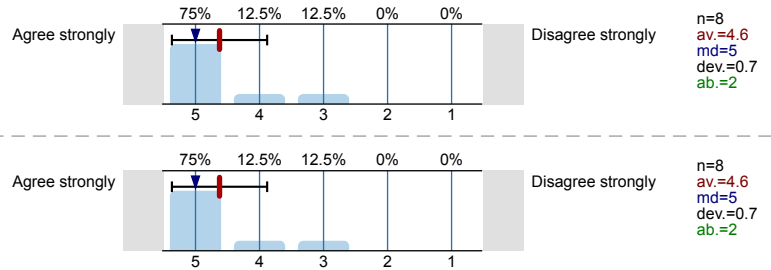

2.4) The fieldwork has broadened my experience.

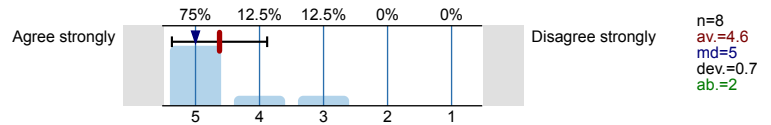

2.5) I enjoyed the fieldwork learning experience.

- 2.6) The practical work has helped me develop new skills.

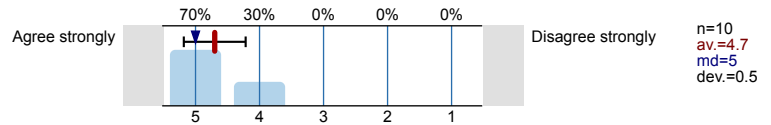

- 2.7) I enjoyed the learning experience provided by the practical work.

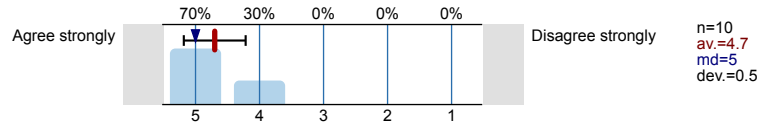

### 3. Assessment and feedback - Contaminant Hydrogeology & Groundwater Remediation

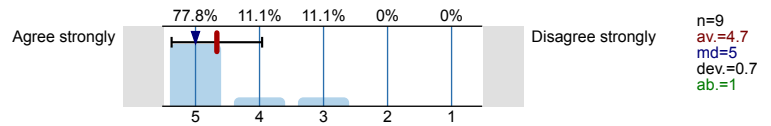

- 3.1) The assessment criteria for this module were made clear to me in advance.

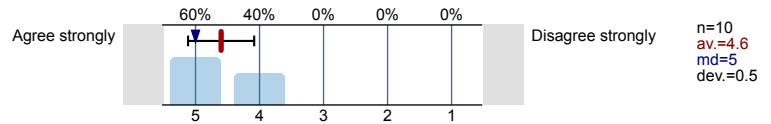

- 3.2) Feedback (informal and formal) has helped me develop and improve my performance.

- 3.3) Feedback on my work (informal or formal) has been timely (within 15 working days).

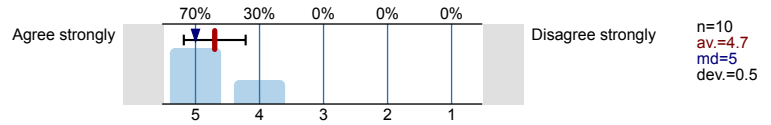

- 3.4) The way this module is assessed has enabled me to demonstrate my learning.

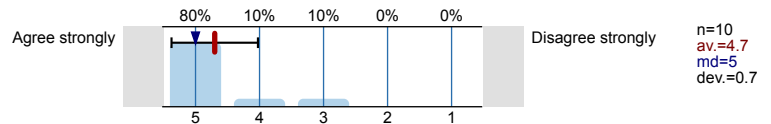

### 4. Facilities and resources - Contaminant Hydrogeology & Groundwater Remediation

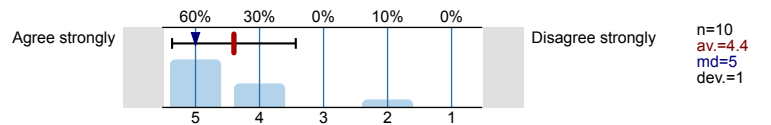

- 4.1) The module learning resources (including those made available through Moodle) are suitable.

- 4.2) Lecture recordings have helped my learning and revision for this module.

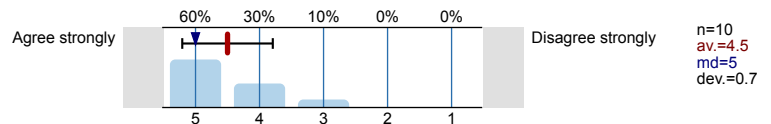

- 4.3) The physical teaching spaces (classrooms and labs) where this module has been delivered have been suitable.

### 5. Summary - Contaminant Hydrogeology & Groundwater Remediation

- 5.1) Overall, I am satisfied with the teaching on this module.

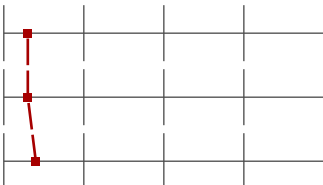

# Profile

Subunit: School of Engineering  
 Name of the instructor: ERIC MARTIN  
 Name of the course: Contaminant Hydrogeology & Groundwater Remediation  
 (Name of the survey)

Values used in the profile line: Mean

## 1. Module organisation and management - Contaminant Hydrogeology & Groundwater Remediation

|                                                                                 |                |                                                                                   |                   |      |         |      |          |
|---------------------------------------------------------------------------------|----------------|-----------------------------------------------------------------------------------|-------------------|------|---------|------|----------|
| 1.1) This module is well organised.                                             | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.5 |
| 1.2) My experience of the module matches the description provided at the start. | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.5 |
| 1.3) I understand the module learning outcomes.                                 | Agree strongly |  | Disagree strongly | n=10 | av.=4.6 | md=5 | dev.=0.5 |

## 2. Teaching and engagement with learning - Contaminant Hydrogeology & Groundwater Remediation

|                                                                                    |                |                                                                                     |                   |      |         |      |          |
|------------------------------------------------------------------------------------|----------------|-------------------------------------------------------------------------------------|-------------------|------|---------|------|----------|
| 2.1) Staff have made the subject interesting.                                      | Agree strongly |    | Disagree strongly | n=10 | av.=4.8 | md=5 | dev.=0.4 |
| 2.2) This module has challenged me to do my best work.                             | Agree strongly |    | Disagree strongly | n=10 | av.=4.6 | md=5 | dev.=0.5 |
| 2.3) The curriculum includes content from a range of perspectives and backgrounds. | Agree strongly |  | Disagree strongly | n=10 | av.=4.6 | md=5 | dev.=0.5 |
| 2.4) The fieldwork has broadened my experience.                                    | Agree strongly |  | Disagree strongly | n=8  | av.=4.8 | md=5 | dev.=0.5 |
| 2.5) I enjoyed the fieldwork learning experience.                                  | Agree strongly |  | Disagree strongly | n=8  | av.=4.6 | md=5 | dev.=0.7 |
| 2.6) The practical work has helped me develop new skills.                          | Agree strongly |  | Disagree strongly | n=8  | av.=4.6 | md=5 | dev.=0.7 |
| 2.7) I enjoyed the learning experience provided by the practical work.             | Agree strongly |  | Disagree strongly | n=8  | av.=4.6 | md=5 | dev.=0.7 |

## 3. Assessment and feedback - Contaminant Hydrogeology & Groundwater Remediation

|                                                                                         |                |                                                                                     |                   |      |         |      |          |
|-----------------------------------------------------------------------------------------|----------------|-------------------------------------------------------------------------------------|-------------------|------|---------|------|----------|
| 3.1) The assessment criteria for this module were made clear to me in advance.          | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.5 |
| 3.2) Feedback (informal and formal) has helped me develop and improve my performance.   | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.5 |
| 3.3) Feedback on my work (informal or formal) has been timely (within 15 working days). | Agree strongly |  | Disagree strongly | n=9  | av.=4.7 | md=5 | dev.=0.7 |
| 3.4) The way this module is assessed has enabled me to demonstrate my learning.         | Agree strongly |  | Disagree strongly | n=10 | av.=4.6 | md=5 | dev.=0.5 |

## 4. Facilities and resources - Contaminant Hydrogeology & Groundwater Remediation

|                                                                                                                  |                |                                                                                     |                   |      |         |      |          |
|------------------------------------------------------------------------------------------------------------------|----------------|-------------------------------------------------------------------------------------|-------------------|------|---------|------|----------|
| 4.1) The module learning resources (including those made available through Moodle) are suitable.                 | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.5 |
| 4.2) Lecture recordings have helped my learning and revision for this module.                                    | Agree strongly |  | Disagree strongly | n=10 | av.=4.7 | md=5 | dev.=0.7 |
| 4.3) The physical teaching spaces (classrooms and labs) where this module has been delivered have been suitable. | Agree strongly |  | Disagree strongly | n=10 | av.=4.4 | md=5 | dev.=1   |

Agree strongly

dev.=0.7

## Comments Report

### 5. Summary - Contaminant Hydrogeology & Groundwater Remediation

5.2) Are there any particular **positive** aspects about this module that you would like to highlight?

- I learnt a lot
- The coursework was interesting as the integration of real life scenario in the coursework was good for learning.
- The Lecturer consistently fosters an inclusive environment and goes above and beyond to ensure we have a strong understanding of the module.
- The model fosters critical thinking, and the examples the professor provides helped bridge the gap between what I'm reading and what to expect in industry
- The professor (even though new to the university) brings in his experiences in the field while teaching. This helped me know the real life applications and scenarios.

5.3) Are there any particular **problems** with this module or any aspects that you would like to see **improved**?

- Adding guest lectures or maybe site visits
- Can't think of anything
- If a Field trip to a real company that is into this course.
- None. I am very satisfied with the course
- Some of the lectures can be overloaded by information. engagement with laboratory experiments can make this module easier to grasp.
